

PIYUSH SINGH

Full Stack(MERN) Developer | Computer Science Engineering Student

+91 9393606075 | piyushsinghrajput9939@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Motivated Computer Science Engineering student with hands-on experience building Full Stack applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Proficient in designing REST APIs, implementing JWT authentication, and building responsive UIs with React.js and Tailwind CSS. Integrated AI capabilities into multiple live projects. Solved 120+ LeetCode DSA problems. Seeking a Full Stack Developer Internship where I can leverage my MERN Stack development experience to build scalable and impactful applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit, Context API

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman

PROJECTS

AI Virtual Assistant

MERN Stack · Gemini API · JWT · Speech Recognition

- Built a full-stack AI assistant integrating Google Gemini API for real-time intelligent responses with JWT-secured protected routes.
- Implemented Speech Recognition and Speech Synthesis APIs for hands-free voice interaction, enhancing UX significantly.
- Engineered RESTful API endpoints with Express.js using MVC architecture, improving code modularity and response performance.

Code Reviewer Platform

MERN Stack · REST APIs · AI Integration · React.js

- Developed a full-stack code submission and review platform with AI-powered automated feedback, reducing manual review effort.
- Designed scalable REST APIs for submission handling and built an interactive React.js dashboard displaying metrics and review results.

AI-Powered E-Commerce Platform

MERN Stack · Voice AI · Admin Panel · MongoDB

- Built an end-to-end e-commerce platform with cart, checkout, and admin panel; integrated AI voice search for product discovery.
- Optimized MongoDB schemas and REST APIs to support concurrent users and real-time inventory and order management.

TECHNICAL EXPERIENCE

MERN Stack Developer Intern | Tech Jose

April 2026 - Present

- Worked on a SaaS-based Hostel and PG Management platform using the MERN Stack
- Built and Maintained frontend features using React.js and Tailwind CSS.
- Developed and Integrated backend APIs using Node.js Express.js and MongoDB.
- Collaborated with the team to implement new features, perform testing, resolve bugs, and enhance application performance and reliability.

EDUCATION

B.Tech — Computer Science Engineering

2023 – 2027

DPG Institute of Technology and Management, Gurgaon | CGPA: 7.3 / 10.0

ACHIEVEMENTS

- Solved 120+ Data Structures & Algorithms problems on LeetCode, demonstrating strong algorithmic problem-solving skills.
- Built and deployed 3+ AI-integrated MERN Stack applications independently, reflecting self-driven learning and initiative.
